

FMM Institute (475427-W)

## **TRAINER**

### **CERTIFICATE IN BOILERMAN**

---

VISVANATHAN MARIMUTHU holds a Masters in Business Administration (International) from University of South Australia. In the past he has an array of engineering work experience in Utility Power Generation, Palm Oil Milling and Petrochemical Industry. His added plus point is that he has gained both operation and some maintenance exposure in the various field that he has worked.

He received his Diploma in Mechanical Engineering from University of Technology Malaysia in 1985 and soon after passed and qualified as a 1<sup>st</sup> Grade Steam Engineer. He also holds a B.Eng (Hons) in mechanical field.

He started his career in power plants in the operation section and has worked in various power plants giving him extensive hands on exposure and experience in operating various types of gas turbines, boilers and steam turbines. He has also worked in Sime Darby as Assistant Mill Manager and in IOI plantation group as Mill Manager.

In the Petronas Group he worked as Resident Steam Engineer and was in-charge of 2 units of 80 tonne/hr gas fired bi-drum water tube boiler. Moreover, he has to take charge of day to day efficient operation of the plant and liaise closely with DOSH for all statutory requirements. He also prepares and conducts courses for the engineers and operators sitting for the Boilerman, Steam Engineer and Internal Combustion Engine competency examination.

He is a regular trainer for FMM Institute and has also conducted in-house training for various manufacturing firms on general engineering and human resource development subjects.
